4LIFE® FOR NONPRESCRIPTION DRUGS

skin. It is designed to help improve skin health issues that come from within. The first and only essential oil derived from noni seeds. High in linoleic acid, a powerful ally in skin hydration and cellular health.

This world exclusive light oil delivers intense healing moisture and relief to rough, distressed skin. It takes over 50,000 seeds to make just one ounce of this rare and precious oil. Absorbs easily into skin.

Product Benefits

- Hydrates and softens skin to hasten the healing process of distressed skin
- Protects with valuable antioxidants
- An essential building block for healthy looking skin
- High in linoleic acid which helps relieve dry, flaky, or rough skin and helps maintain smooth, moist skin
- Won't clog pores

Featured Ingredients

Pure Noni Seed Oil

Hydrates and softens while protecting skin with valuable antioxidants

Recommended Use

Gently apply a small amount of Noni Seed Oil to distressed skin anywhere healing moisture can be beneficial.

How Supplied:

33 FL oz (10 ml) bottle
Packaged for Tahitian Noni International, a subsidiary of Morinda, Inc. Provo, UT 84604. USA.

References:

West BJ, Palu 'AK, Jensen CJ. Noni Seed Oil Analysis. TNI Patent Pending. Noni seed oil analysis reveal that it has natural phytosterols, vitamin E and a significant source of omega-6 fatty acid, an essential fatty acid.

Palu 'AK, Zhou BN, West BJ et al. TNI Patent Pending. Noni seed oil can reduce pain and inflammation due to its significant and selective inhibition of COX-2 enzymes.

Douglas M. Rope, M.D. Midwest Clinical Trials. A study to Assess the Comedogenicity of a Test Product When Applied Topically to the Skin of Healthy Human Subjects. May 19, 2004. Noni seed oil significantly reduced the number of closed comedones (white heads) on the skin of 26 teenage volunteers during a clinical trial.

4LIFE® TRANSFER FACTOR PLUS® Advanced Formula (4Life Research, LLC)

Description: Transfer factors are small peptides of approximately 44 amino acids that "transfer" or have the ability to express cell-mediated immunity from

immune donors to non-immune recipients. 4Life Transfer Factor® products are derived from egg yolk and cow colostrum extracts. Combined, these compounds comprise the Transfer Factor E-XF™ blend, which provides the broadest spectrum transfer factor available. The extraction of 4Life Transfer Factor E-XF is protected by US patents 6,468,534; 6,866,868; with other patents pending.

Transfer factors educate the immune system to recognize self from non-self, thus supporting healthy immune system function. Because they instruct the immune system to act appropriately, transfer factors are effective in supporting normal inflammation response in the body, a key to healthy body system function.

4Life Transfer Factor Plus Advanced Formula combines Transfer Factor E-XF with a proprietary formulation of innate and adaptive immune system enhancers such as Inositol Hexaphosphate, Cordyceps, Beta Glucans, Maitake and Shiitake Mushrooms. These ingredients work together to trigger and enhance the various immune protective mechanisms of the body. Clinical studies show that 4Life Transfer Factor Plus Advanced Formula can increase Natural Killer cell activity up to 437 percent above baseline.*

* Blind Independent study conducted by Dr. Anatoli Vorobiev, head of Immunology, at the Russian Academy of Medical Science.

Summary of Research: In 1949 transfer factors were discovered by Dr. H. Sherwood Lawrence. Since that time hundreds of studies have been completed involving transfer factors effect on various diseases. Due to new studies conducted in Russia, the Russian Health Ministry has approved 4Life Transfer Factor and 4Life Transfer Factor Plus to be the first supplements used by doctors and hospitals in Russia. Recent studies on transfer factor include:

Rak, AV et al. Effectiveness of Transfer Factor (TF) in the Treatment of Osteomyelitis Patients. *International Symposium in Moscow 2002*, Nov 5-7, 62-63.

Granitov, VM et al. Usage of Transfer Factor Plus in Treatment of HIV - Infected Patients. *Russian Journal of HIV, AIDS and Related Problems 2002*, 1, 79-80.

Karbuisheva NV, Tatarintsev PB, Granitov BM, Karbishev IA, McCausland CW, Oganova E. Use of Transfer Factor in Treatment of Chronic Viral Hepatitis B and C, Siberian J. of Gastroenterology and Hepatology. 2003, (16), p. 147.

Rak AV, Dadali VA, Stolpnik ES, McCausland CW, Oganova E, Gaykovaya LB. *Immunological Test Results from Chronic Osteomyelitis Patients under going Complex Treatment with Transfer Factor*, St. Petersburg State Medical Academy R.F. Annals of Sci. Conf., I-RIID. Barnaul, 2003 p. 55.

Recommended Dose:

600mg Transfer Factor E-XF daily. If used in combination with other immune ingre-

dients, such as 4Life Transfer Factor Plus Advanced Formula, less may be taken. No toxicity level of Transfer Factor E-XF has been established.

See www.transferfactorinstitute.com for more information on transfer factor.

VEMMA NUTRITION PROGRAM™ (Vemma)

Description: The Vemma Nutrition Program provides two powerful liquid formulas that make it easy to get the vitamins, minerals and antioxidants you need to form a solid nutritional foundation. The first half of the program is Mangosteen Plus™, a powerful multivitamin formulation that contains 12 full-spectrum vitamins in a base of antioxidant-rich mangosteen fruit and mangosteen pericarp (rind) extract, whole leaf aloe vera and decaffeinated green tea. This amazing formula provides powerful benefits:

Mangosteen Powered Antioxidants. Mangosteen provides powerful plant-based antioxidant protection and features a full array of phytonutrients including naturally-occurring xanthones. Xanthones are effective antioxidants and provide the body with important nutritional benefits. Current lab tests reveal that Vemma provides more total mangostin xanthones than the competition with 94.11 milligrams per ounce.

Vitamin Powered Antioxidants. Contains critical antioxidant vitamins A (as beta carotene), C and E to help fight free radical damage and prevent oxidative stress to the body. This product has an ORAC value totaling 114,163 units per liter. Some scientific evidence suggests that consumption of antioxidant vitamins may reduce the risk of certain forms of cancer. However, the FDA has determined that this evidence is limited and not conclusive.

Continued on next page

Vemma Nutrition—Cont.

Whole Leaf Aloe Vera. This wonderful leaf succulent contains an impressive selection of minerals, amino acids and nutritional sugars such as polysaccharides, enzymes, lignins, saponins and anthraquinones that are known to provide the body with many beneficial effects for health and wellness.*

Beneficial Levels of Selenium. Some scientific evidence suggests that consumption of selenium may produce anticarcinogenic effects in the body. However, the FDA has determined that this evidence is limited and not conclusive.

Powerful B Vitamins. Supplies additional B vitamins at heart-healthy levels for added energy and provides a good source of folate.* Healthful diets with adequate folate may reduce a woman's risk of having a child with a brain and spinal cord defect.

The second half of the program is **Essential Minerals®**. Minerals support the health of organs, bones and the immune system.* The body does not inherently produce the minerals it needs, this is why supplementation and diet are important. In fact, our physical well-being is more directly dependent upon the minerals we take into our bodies than almost any other factor.* Vemma's Essential Minerals is a completely balanced, 100% natural mineral supplement that contains a combination of 65 major, trace and ultra-trace minerals. Essential Minerals is offered in a bioavailable (body-ready) liquid form that consists of pristine plant-sourced minerals totally dissolved in an ionic state.

The Vemma Nutrition Program's bioavailable (body-ready) formulas are easy to take and easy for the body to use. They are ideal supplements for patients who have trouble swallowing pills or tablets.

* These statements have not been approved by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

** Based on independent lab tests conducted in April 2006 (Lot #01B614).

Supplement Facts:**Mangosteen Plus™**

[See first table above]

Essential Minerals®

[See second table above]

Directions: Shake well and serve cold. Take one fluid ounce (2 tablespoons) of Mangosteen Plus and one fluid ounce (2 tablespoons) of Essential Minerals daily. For best results, take both products together. For children ages two to twelve,
